Challenge Safes,
MANUFACTURED BY
HORNBACH & WAGNER, Milwaukee, Wis.
WE ARE NOW MANUFACTURING all sizes of these favorably known Safes, a specimen of which was recently subjected to a severe test by fire, and in the language of the Committee appointed on the occasion, "a severer one than ever before was given in this city. (See Report of the Committee below.)
This being certainly the most reliable Safe in this market, persons in need of this article will find it to their interest to examine our stock before buying elsewhere. All Safes provided with the best of locks, both powder and burglar proof. Prices moderate.
Agent for the sale of the Challenge Safe is
MR. E. SCHUMACHER,

Trial of the Challenge Safe.
REPORT OF THE COMMITTEE.
We, the undersigned, citizens of this City, having acted as a Committee on the trial of one of the Challenge Safes manufactured by Hornbach & Wagner, of this city, yesterday afternoon, certify by this, that said Safe was placed on four small brick layers, twenty inches from the ground, surrounded by a circular wall about three feet distant from the Safe, and reaching more than a foot above it, and covered from all sides as well as from top and bottom by wood, thus filling the whole space between the Safe and the wall and some way upwards, with just four cords of wood. We having inspected the books, papers and bank bills that were placed in the Safe, fire was set to the pile of wood, and owing to a quantity of turpentine which had been poured on the wood-pile, the whole was in a short time all in a blaze. The flames then continued raging for an hour and a half around, above and below the Safe, melting off a solid brass knob of an inch and seven-eighths in thickness, and bringing the Safe to a red-hot heat, when we, the Committee, considering this a fully satisfactory trial, and one that a safe is unusually subjected to in case of conflagration, concluded to let an engine play on it. This was quickly brought in execution, the stream of water being directed against the Safe, and after it had thus been cooled off and the flames extinguished, to admit of approach, it was tried to be opened, which after some little time was effected, when in our presence the Safe was opened, and to the astonishment of all persons present, the articles deposited inside, including $15 in bank notes belonging to Mr. Ilsley, were found uninjured by fire, and only some of them slightly damped by the steam created by extinguishing the flames.
Fully convinced that the test said Safe was subjected to was a fully satisfactory one, and much severer than any ever before given in this city, we take the opportunity of recommending the Challenge Safes of Hornbach & Wagner to all who may stand in need of a safe-guard for their books, papers and other valuables, as a perfect security against all the depredations of fire.

From the New York Evening Post.

Foreign Items.

A Paris letter writer says that the oral discussions of the Plenipotentiaries, will not appear when the protocols of the Paris conference are published, but only a summary of their deliberations. The debates of this kind that took place at the last Vienna Congress were published.

At a grand banquet lately held in Santiago, Spain, a few young men, whose heads were probably heated with wine, drank "to the health of the first Protestant minister that would come to Spain to expound the doctrines of his religion." The local authorities attached no importance to the circumstance, but the Minister of Justice, when apprised of it, ordered that proceedings be instituted forthwith against the authors of "such a scandalous toast."

A correspondent of the *Independance Belg.* says: "Lamartine, after making great efforts to save the wreck of his shattered fortunes—efforts which have been feebly seconded by his countrymen—is about to assign all his property for the payment of his debts, and seek a home in the United States. The estate given to him several years ago by the Sultan, has been taken from him by the Turkish government. It turned out to be one of those presents that bring ruin on the recipient. Lamartine expected that a large subscription list to his Course of Literature would have averted the disaster; but it is asserted that it is not large enough to pay the expense of publication."

A memorial has just been presented to the Sultan, in which his ministers are accused of having sacrificed the national honor, and the interests of religion, on the occasion of the late concessions made to his Christian subjects. They are accused of having granted to the allies the same privileges which were demanded by Russia, and the withholding of which was one of the chief causes of war. The memorial, (the authors of which are said to be known,) was presented to the Sultan by his Grand Chamberlain, Jezzet Bey. As to the effect it produced upon the monarch, nothing is known farther than the fact that Jezzet Bey has just been dismissed from office, Nichet Bey, an inferior chamberlain, having been promoted to his port.

A correspondent of the Paris *Patrie*, writing from Sebastopol, says: it is generally thought that Sebastopol will not be rebuilt, as it would cost as much to clear away the rubbish of the old city as to build a new one. There is literally nothing left of the city but shapeless ruins. The bullets are as thick on the ground as hail-stones. Of the magnificent barracks, containing hospitals, churches, &c., &c., and consisting each of twenty-five or thirty different buildings, nothing is left but huge piles of stones. The writer lately strolled over the site of the English batteries, and was astonished to find several fieldpieces still on the ground; dismounted, it is true, and for the most part spiked. "I know not," says he, "how the account for this indifference on the part of our allies, who are generally, as individuals, extremely eager to gather up everything that comes from Sebastopol. I have seen them buy from our soldiers or their own objects of trifling value, but for which they paid almost fabulous prices." The city is now being visited by large numbers of English tourists, who have explored it in every direction. The few merchants established among the ruins of the town, derive what advantage they may from this sudden influx of curiosity seekers.

☞ The Boston *Courier* sums up the results of the war in Europe thus:

1. Turkey—Stripped and plundered.
2. Russia—Unconquered, she triumphs.
3. France—Her arms secured the Allies' victories.
4. Austria—Eating the oyster, awards the shells.
5. Sardinia—Fighting for gold, she loses no thing.
6. England—Her prestige on land and sea is lost.

Ods and Ends.

—'Though lost to sight, to memory dear,' as the maid said to her lover, when his face was buried in beard and whiskers.

—A prodigy reading in the paper that Mdlle. Didiee had 'a voice of two *registers*,' expressed his opinion that she ought to sing with great warmth.

—Mrs. Rogers was very indignant on hearing that the Russians had taken *flight*—at the same time she observed that it must have been an outlandish sort of place at best, for *she* couldn't find it anywhere on the map.

—Naturalists have remarked that the squirrel is continually chattering to his fellow squirrels in the words. This we have every season to suppose, arises from that animal's love of gossip, as he is notoriously one of the greatest tail-bearers among his tribe.

Our Outside.—We have placed upon the first page of our paper a half column of interesting reading matter, and shall continue to do so from this time forth, intending also to place reading matter on the last side after a few days. We do this at the desire of many of our advertisers, in order that their cards may the more certainly attract the attention of our readers. The demands upon the inside pages by advertisers are greater than we can possibly supply.

NEWS OF THE MORNING.

The steamer *Morgan* brings a confirmation of the defeat of a detachment of Walker's troops by the Costa Ricans, and the court martial of Col Sclesinger, for cowardly conduct. Also of a success by another band of fillibusters.

The New York canals are to be opened on the 5th of May.

Our correspondence comprises another of Mr. French's graphic letters, and a communication from "Many Tax-Payers," deserving of attention.

The La Crosse R. R. is opened to Beaver Dam, 62 miles from this city.

See our advertising columns for a large number of new notices.

Railroad to Beaver Dam.—The La Crosse & Milwaukee R. R. was opened to Beaver Dam yesterday, the passenger trains running through. So we have another iron chain, of 62 miles, linking us to one of the smartest towns, situated in one of the richest and most populous portions of the State.

The Know-Nothing News.

The *News*, playing on its single string, and that a false one, continues to represent the *Sentinel* as coalescing with and sustaining the Know-Nothings, and repeats the fabrications, which we have already exposed, to make out its case. Hear this editorial parrot:

> We see it now, at this very time, cheerfully co-operating with the *American* and the Madison *Journal* in endeavoring to place the control of the Republican State Convention in the hands of the K. N.'s and denouncing Booth for his manly efforts to expel the secret order from the ranks of the Republican party; and when we advert to these *facts*, how are we met?

Why, by the specific reply that each and all of these alleged "facts" are distinct and deliberate falsehoods; knowingly uttered as such by the *News* and known to be such by every reader of the *Sentinel*. It is quite unnecessary, indeed, to honor them with any further notice.

The *News* relies, however, upon the fact that the *Sentinel* earnestly advocated the election of Mr. Banks, as Speaker, to convict us of Know-Nothing proclivities. If *that* be evidence, then is the entire Democratic party in Congress amenable to the same charge, for they voted *in a body*, first for Gov. Smith, a Know-Nothing Democrat from Virginia, and then for Gov. Aiken, a Know Nothing Democrat from South Carolina! And to this day the *News*, with all its affected regard for the rights of Adopted Citizens, has not had one word of rebuke to administer to its friends in Congress, for abandoning their candidate and platform, and voting for Know-Nothings! To borrow a climax from our pleasant neighbor, "Shame, infamy and disgrace should be the reward of hypocrisy so bold and glaring, as that which the *News* here stands convicted of."

The Annexation of Oude—How John Bull "Extends the Area."

Late advices from India tell us that the "Honorable East India Company" has deposed His Majesty Wajid Ali, of the province of Oude, containing 1,000,000 of people, and taken possession of the territory. The only reason for this summary proceeding is furnished by the London *Times*, in an article announcing the fact. The *Times* says:

> "The King of Oude" has been deposed, and his kingdom added to the territory of the East India Company. This country, situated in the interior of India, was, by a treaty concluded in 1801, placed in the category of protected States. The sovereign was to be defended alike from foreign invasion and from the insurrection of his own subjects. In the present day the former fear has vanished, but intestine commotion might well be dreaded by the degenerate despot who ruled in Lucknow. The annals of this Court have surpassed even the habitual atrocities of the East. The King existed only for the gratification of his own appetites; he took no part in the government of the country, and the only difference between his former and his present position is that 4,000,000 of people are no longer plundered in his name."

The fact that "intestine commotions might well be dreaded," and the benefit to accrue to the people from being plundered in some other name than that of the King, may be entirely satisfactory to the East India Company, and to the *Times*, but seem to people on this side of the water to savor too much of the philosophy of fillibuster proclamations, to appear consistent with John Bull's holy horror of the conduct of a certain excitable and adventurous portion of our population. Gen. Walker, now busily engaged in Central America, only proposes to "free that fine country from intestine commotions, give it a stable government, and prevent it from being plundered by somebody else." And, as he proposes, after he shall have succeeded in gaining power, to let the people of that region enjoy the benefit of whatever good is done, we think that his case is decidedly better than that of England, or the East India Company,—nearly synonymous in the present instance.

"Wajid Ali is summarily deposed, and retires on a pension of £150,000 a year," says the *Times*. Generous East India Company! And further;

The people will now be sure of a regular and vigilant administration.

> "The Indian government will be benefitted by the addition to its territory of a province nearly as large as Ireland, and capable of producing a surplus revenue of from £2,000,000 to £3,000,000 a year."

That must indeed be a vigilant administration which shall extract annually, from four millions of people, a surplus revenue of *ten to fifteen millions* of dollars!

Really, John Bull ought not to be jealous of Walker's little performances down in Central America. They are not—supposing them to be successful—to be named in the same day with the Annexation of Oude.

A "Favorable Allusion."—We are happy to see that our neighbor of the *Wisconsin* notices favorably our suggestion that he should become connected with the joint-stock establishment which he seems anxious, for "harmony's" sake, to get up. Here is a chance, now, for the peace makers; and if they will only include the *News* and *American* in the bargain, what a "happy family" it would be! But we insist, as a *sine qua non*, that brother Cramer shall be the "miscellaneous" editor. We don't go into the "fusion" on any other terms.

Aid for Kansas.—Mr. John H. Tweedy closed his eloquent and spirit-stirring speech at the Kansas Meeting on Tuesday evening by saying that he should "give a rifle and something more." On Wednesday, just before starting on a brief visit East, Mr. Tweedy called on Mr. Lapham, the Treasurer of the Kansas Aid Fund, and gave him his check for $150. That is "suiting the action to the word."

Janesville Gas Works.—The Gas Works at Janesville, are being pushed forward rapidly, and the *Standard* thinks the city will be lighted up by middle of August.

Ancient City of Alexandria—The Pharos—The Library—The Needles of Cleopatra—The Statues of Arsinoe—Pompey's Pillar—Its Institutions of learning—The Modern City—Its Inhabitants—The donkeys and their drivers—A ride.

Alexandria, Dec. 28, 1855.

The city of Alexandria was founded by and named after Alexander the Great, the son of Philip of Macedon, about the year 332 before Christ. In his conquest of the world, this celebrated general was here on the spot, and saw the natural advantages it had over other places, when he determined to found a city, and personally assisted in establishing its boundaries. Its commercial advantages soon attracted the wealth and business men of different countries, and it became one of the most opulent and largest of cities. It enjoyed the trade of the Mediterranean, Syria and Egypt, and all that of Arabia and the countries beyond, by the means of caravans. It was one of these caravans on its way into Egypt, from Syria, composed of Ishmaelites, who brought Joseph along with them, as mentioned in the Bible. They had come, says the sacred historian, "from Gilead with their camels, bearing spices and balm, and myrrh, going to carry it down to Egypt."

In speaking of its site, Strabo the historian, says: "The seas wash it on both sides; one on the north denominated the Egyptian, the other on the south, which is the lake Maren, called also Mareotis. The latter is fed by several canals from the Nile, as well from above as from the sides; and by it many more things are brought to Alexandria than by the sea, so that the port on the lake side is richer than that on the coast.—By this, also, more is exported from Alexandria than imported into it, which any one who has been at Alexandria and Dicearchia must have perceived, in looking at the merchant ships trading to and fro, and compare the cargoes that enter and leave these two ports. Besides the wealth that pours in on either side, both by the seaport and the lake, the salubrity of the air should also be noticed, which is caused by the peninsular situation of the place, and by the opportune rising of the Nile. Other cities situated on lakes have a heavy and suffocating atmosphere during the summer heats, and in consequence of the evaporation by the sun, the banks of these lakes becoming murky, a noxious exhalation is generated, which produces pestilential fevers, but at Alexandria, the inundation of the Nile fills the lakes in the summer, and by preventing its becoming murky, effectually checks any unwholesome vapor. At that time, also, the Etesian winds, blowing from the northward, and passing over so much sea, secure to the Alexandrians a most delightful summer.

The site of the city has the form of a Macedonian mantle, whose two highest sides are bathed by water to the extent of of nearly thirty stadia, and its breadth is seven or eight stadia, with the sea on one side and the lake on the other. The whole is intersected with spacious streets, through which horses and chariots pass freely; but two are of greater breadth than the rest, being upwards of a plethrum wide, and these intersect each other at right angles. Its temples, grand public buildings and palaces, occupy a fourth or a third of the whole extent; for every successive king, aspiring to the honor of embellishing these consecrated monuments, added something of his own to what already existed. All these parts are not only connected with each other, but with the port and with the buildings that stand out-side of it.

Part of the palace is called the museum. It has corridors, a court, and a very large mansion, in which is the banqueting room of those learned men who belong to it. This society has a public treasury, and is superintended by a president, one of the priesthood, whose office having been established by the Ptolemies, continues unto Cæsar.

Another portion of the palace is called Toma, which contains within its circuit the tombs of the kings, and of Alexander. For Ptolemy, the son of Lagus, took the body of Alexander from Perdiccas, while on its removal from Babylon; and having carried it to Egypt, buried it at Alexandria, where it still remains. But it is no longer in the same coffin; for the present one is of glass, and the original which was of gold, was stolen by Ptolemy, surnamed Cocces and Pariesactus, though his immediate fall prevented his benefitting by the robbery."

Among the most prominent objects of interest that attracted the stranger's attention when Alexandria was in her palmy days, during the reigns of the Ptolemies and Cleopatra, were the pharos, or light house, and the great library. The former was a square building of white marble and of immense height. The expense of building it must have been very great, at least one million of our own money, which, considering the great difference between the value of money at that time and the present, must have made the cost of great magnitude. The dedication which was inscribed on its front, explains its object and the name of the munificent builder. It ran in these words: "King Ptolemy, to the saviour Gods, for the use of those who travel by sea."

The library, probably the largest in the world at any period of its history, was founded by Ptolemy Soter. Several additions were made by his successors, and also that of 200,000 volumes presented to Cleopatra by Mark Antony, making in all about one million volumes. It will be borne in mind that at this period the art of printing was not discovered, and that all books were written, making the expense probably one hundred times more than the value of books at the present day, allowing the value of the composition to be only equal. A large part of this valuable library was destroyed in the wars of the Alexandrians and Julius Cæsar, and the balance remained entire, about 40,0000 volumes, until the city was taken by the Arabs, A. D. 640, when it is said that an entire army for six months used the library for fuel.

Even at this late period Alexandria was one of the most splendid cities in the world. The conquerer Amer, in writing to the Caliph, announcing the victory, says: "I have taken the great city of the West. It is impossible for me to enumerate the variety of its riches and beauty, and I shall content myself with observing, that it contains 4,000 palaces, 4,000 baths, 400 theatres or places of amusement, 12,000 shops for the sale of vegetables, and 40,000 tributary Jews."

There are few remains left in Alexandria that connect the present to its past greatness. The two obelisks, called by many Cleopatra's Needles, one only standing, and the other lying on the ground where it fell, together with Pompey's pillar, are pretty much all that is left. The two former are of red granite, about seventy feet high each and covered with hieroglyphics. They formerly stood at the ancient city of Heliopolis, which was in ruins at the birth of our Saviour, and were brought here by one of the Cæsars and placed before his temple. There was another obelisk here, which was erected by Ptolemy Philadelphus and set before the temple of Arsinoe, his sister. This princess was deified, and had executed for her the celebrated statue of Dinocrates, which kept suspended in mid air without any material thing to support it. It was made of loadstone, and from the equal amount of attraction that it received from the iron frame that enclosed it, it presented the curious phenomenon of hanging in the air. This same Ptolemy also erected to her memory a statue of topaz, twelve feet high, which was placed in what was called the golden sanctuary. He also erected a temple to his father and mother, whom he also caused to be deified, and in it placed their statues, made of gold and ivory.

Pompey's pillar is a column one hundred feet high, cut out of a single block of red Egyptian granite. It stands on a slight eminence out-side of the city walls. From an inscription upon it, it appears that it was erected in honor of the Roman Emperor Diocletian. These are the principal antiquities that remain entire of this ancient and populous city. But in all parts of it are found broken arches, walls, pedestals, fragments of statuary and many other remains of works of art that attest its former opulence, wealth and power.

According to Pliny, Strabo and other writers, Alexandria was the seat of learning and refinement, and particularly the sciences of philosophy and astronomy were taught with great success, and the fame of the wisdom of the Egyptians was known through the world. In those schools of science may be found the names of Euclid, Ctesibus, Clemens, Origen, Athanasius, Theon and his daughter Hypasia.

Adjourned to Monday 28th, 7½ P. M.

Our European Correspondent.—We give to-day the first of Mr. French's letters from Egypt, and have four more on hand, descriptive of his trip up the Nile. Like all the others, they are fresh, graphic and readable. A private letter from Mr. F accompanies the last batch, from which we take the following extracts:

Cairo, Egypt, March 14, 1856.

Messrs. Rufus King & Co:

* * * * We arrived here on the 10th instant, making just sixty days from the time of starting. I had intended, on my return, to leave the Nile a little below Thebes and cross the Desert to Kossier on the Red Sea; but the Pilgrim travel does not commence until June, and I could not wait so long. But few cross in that way now.

On my arrival here I found Mr. Marshall of your place. He seems very much interested in the antiquities and other queer things not found in Wisconsin. Mr Cox got here last night, so here are three Wisconsinites together.

I leave here in a few days for Jerusalem, Damascus, Balbec, &c. V. F

Three Badgers together in Cairo must have made a pleasant meeting. We should very much have liked to have made a fourth.

A Fabrication Promptly Exposed.—The *News* of Wednesday announced telegraphically the removal of Mr. J. H. Preuss, recently appointed Superintendent of Public Property at Madison, and improved the opportunity of charging the removal to Gov. Bashford's dislike of "foreigners." Yesterday it added another circumstance to the lie, by saying the removal was made at the instance of Mr. John Lockwood, the leading Hindoo of our State. Unfortunately for the *News*, it turns out that the whole story is false throughout. The Madison *Journal* of yesterday says.

> Mr. Preuss has not been asked to resign, has not resigned, is still exercising the duties of his office, is likely to continue to do so; Mr. Keyes has not been appointed, and the predictions of our neighbor have not been verified.

What "weak invention" will the *News* try next?

U. S. Marshal in Jail.—Marshal Robinson, of Cincinnati, who has figured so largely of late in efforts to return fugitives slaves to Kentucky, was brought up a few days since before the Probate Court, and fined $300 for contempt of court, in not obey its process. In default of payment he was committed to jail. Thence he was brought by *habeas corpus* before Judge Leavitt of the U. S. District Court, and a motion made for his discharge. The motion was argued on the 21st, but as no decision was given that day, the Marshal was re-committed to jail. The cost to the United States of the slave case out of which this arrest grew, has already been $25,000.

The Emigration to Kansas.—A letter received at Chicago on Wednesday last, dated Lawrence, April 15th, says, that the emigration was very large, filling every place, public and private, and also, that a large company had just arrived from New England with five pieces of cannon and an abundant supply of Sharpe's rifles.

Military Appointment.—The Madison *Argus* states that V. W. Roth, of Madison, has been appointed Commissary General of the State *vice* George Thompson, removed.

Fox River Valley Railroad.—We learn from Mr. Belden that the Engineers have commenced the survey of the route between this city and Rochester. They will run two or three lines, and expect to find a very favorable one.

Sensible to the Last.—The Mineral Point *Democrat* entirely agrees with us in our view of the singular omission of the State canvassers to attempt any defence of the fraudulent returns. It says:

> "Most readers will at once notice that no particular allusion is made to two or three precinct returns, which have been declared to be forgeries. We would suggest to the late State Canvassers, that if they were desirous of defending themselves they have skipped over exactly what they ought to have explained."

Racine Property.—Our old citizen, W. R. Irish, Esq, lately of the American House, some days ago purchased a house and lot of Dr. Parks of Racine, for $6,600. He has been since offered half the amount as a bonus, but refuses to sell even at $12,000. He intends to locate there. —*Chicago Dem.*

Sensible man! But Mr. Irish is only one of some thousand, or more Chicagonians, who are seeking for healthful and pleasant residences within the borders of Wisconsin.

Winter Wheat.—From all parts of the country we hear the prospect for winter wheat is good. Farmers says it has stood the winter well, and looks first rate this Spring. Farmers have commenced their plowing for Spring crops, and if a fair proportion of Spring wheat is sown, we shall be likely to have a fair supply, for large quantities of winter wheat are now on the ground. —*Waupaca Ledger.*

The Cars are Coming.—Arrangements are now completed for the running of trains to this place, and to-day at 12½ o'clock the first Passenger Train is to run to the depot in this city. The Artillery Company is to turn out to meet them, though the celebration will not take place in a week or two.—*Beaver Dam Republican, April 24.*

Strange Legislation.

Messrs. Editors:—The Legislature of Wisconsin, at its late session, enacted a law, which makes it the duty of the City Comptroller, to ascertain the indebtedness of the old First and Second Wards, for general purposes, and apportion the same, *pro rata*, on the assessment rolls of the new and old Wards under the recent division. Now we deny that any such enactment of the Legislature can be valid, for the reason that the City Charter *expressly prohibits* the contracting of any debts against the Wards by the Alderman, *over and above* the annual Ward Tax. Section 3 of Chapter 5 reads as follows:

"No Alderman of any Ward shall contract debts against such Ward, in any one year, to an amount *greater* than the amount of tax which under the provisions of this Chapter may be levied in such Ward to meet the current expenses of the year, and if any Alderman shall so contract debts to a greater amount than such tax, *neither such Ward nor the City* shall be liable for the same, *but the Alderman so contracting shall be liable therefor*, as if the debt had originally been contracted by such Alderman *personally*."

The provision of the Charter was intended as a restraint upon the Aldermen, and to prevent any indebtedness being created over and above the amount levied to meet the current expenses of the year. It is supposed that quite a heavy debt has been created by the Alderman of the old First Ward, during the past two years, which they are now attempting to impose on the tax payers; but this cannot be done, as it is not in the power of the Legislature to compel the people of the Wards to pay debts *illegally* contracted by their Aldermen. And if such an imposition should be attempted it ought to be resisted to the extent of the Law.

MANY TAX PAYERS.

Milwaukee, April 24, 1856.

Sights in Milwaukee.—Our brother of the Jefferson County *Republican* has recently paid a visit to Milwaukee, and tells of what he saw there. We copy what he says of two of our superb commercial warehouses:

"Next in point of beauty, order and business-like appearance to Nazro & Co's Hardware Palace—one of the most splendid establishments of the kind in the world—is Sexton, Brother & Co.'s Dry Goods and Clothing Depot, 143 and 145 East Water street, Milwaukee. The front of the building is of white marble, Inside, on three different floors, are arrayed their immense stock of goods. One would think, to look over this stock, that they had enough to dress all creation and part of Canada on hand now, but they are in daily receipt of large lots from the East. Country Merchants would do well to give them a call before purchasing elsewhere, and if you don't find them *business* men, in every respect, then we are deceived.

Here is what he thinks about the *Sentinel* office:

It does one good after tugging away at the "hand press" a few months, to step into the *Milwaukee Sentinel* office and see "hard work made easy." Every thing moves like clock work.—What particularly struck our fancy was the working of the "paper folder," being so simple and yet saving so much labor. We should judge they do a large amount of business there, and we *know* they furnish the best *news*-paper in the West."

Thank you, neigabor. Call again.

Launch of a Clipper.—It takes Manitowoc to turn out the Clippers. On Tuesday afternoon last a finely modelled vessel, of this description was launched from the ship yard of Bates & Son. We have given her dimensions before, but we repeat them with a more full description:

Length on deck	97 feet.
Breadth of Beam	27 8-12 "
Depth of Hold	7 6-12 "

Her registered tonnage is 175 50-95ths, and she is capable of carrying 155 thousand feet of lumber. She is built somewhat full, but has a graceful bow. Her stowing capacity is great, and her draft astonishingly light, being a trifle over 4 feet. She is named the "*Stephen Bates*," in compliment to the senior partner of the builders, who, with his son, has done much to forward the shipping interests of Manitowoc. The latter is one of the editors of the *Nautical Magazine*, is devoted to the science of Marine Architecture, and has few superiors in practical and theoritical knowledge of his art. Her Captain is Robert L. Bell, who by experience, is well qualified for a sailor's duty, and by merit for the command of a good craft. She is owned by the persevering firm of Van Valkenburgh & Co., and has been built to accommodate their heavy mercantile and lumbering trade. By the late purchase of the Durgin Mill property, they are now largely engaged in the manufacture of lumber, and they have been extremely fortunate in getting their vessel out so early in the season, when freights are high and shipping facilities in great demand.—They are an active, hard-working firm. Each branch of their business—the mill—the vessel—and the mercantile department—is manned by one of their own number, and well manned. It requires no prophet to foretel that the present will be a prosperous business season, and unless the old dame who contrives our fortunes, should take delight in disarranging her own work, and in defeating her own well-formed plans, they will realize a handsome reward for their untiring energy. *So mote it be.*—*Manitowoc Herald*, April 19.

Awful Disclosures.—The *Argus* of yesterday says that Lt. Gov. Ford of Ohio and John Lockwood have been here closeted with the principal Know Nothings of this place; that "Gov. Bashford called on them, and took Gov. Ford over to the Executive office, where they were in council a large portion of the forenoon;" and that it supposes that these mysterious movements are respecting bringing out Banks for the Presidency "or the action of the delegates from this State to the K. N. New York State Convention."

Gov. Bashford merely extended those courtesies to Lt. Gov. Ford, which as the Governor of the State, we suppose it is proper he should extend to any prominent citizen and officer of a sister State, who may visit this place, without reference to his political associations. The editor of the *Argus* was hanging about Ford most of the time he was here, and if there was any Know Nothing meeting undoubtedly attended it.—*Madison Journal.*

Fatal Accident.—We learned last evening, just as we were going to press, that one of the hands employed on the railroad, by the name of Burr, was jammed between two cars so severely yesterday afternoon, at the depot in this city, that he died early in the evening.—*Beaver Dam Rep.*

Liberal.—Our fellow citizen, Theod. Newell, gives two hundred dollars, in aid of the Kansas Emigration Fund. This is liberal, but it comes from a liberal and patriotic citizen.—*Kenosha Tribune.*

The New Dredge.—The Engine and machinery for our New City Dredge arrived from Troy, N. Y. a few days since, and they are now busily at work putting it into the boat prepared to receive it. We were around at the dredge on Tuesday, and if we can judge anything by examination of the castings, boilers, and the work generally, before it is put together, we should say, it is about equally distinguished for strength, weight and workmanship three very important items to make an effective and durable machine.—*Kenosha Tribune.*

Freights at Chicago.—There is an improving tendency in freights. The Ogdensburgh line of propellers have been chartered at fair rates. The Louisville and Wisconsin take provisions to Ogdensburgh at $1 12 per bbl. Propeller Michigan is chartered at $10 50 per ton through to New York. The propeller Lady of the Lake takes flour at 75 cents per bbl to Ogdensburgh—Provisions are contracted to be shipped to Boston at $12 50 per ton.—*Chicago Dem.*

Open to the Channel.—The U. S. steam dredge is now at work cutting the channel through the bar in a line with the piers. Six days more of still water, and a channel will be made, as wide as the opening between the piers, and twelve feet deep. The sand taken up is sunk out in thirty feet water. The expense of running the dredge is about $25 per day, and sixteen men are required to attend it with the four scows used as dumpers.—*Chicago Press.*

For Chicago.—The schooner *White Cloud*, Capt. Jones, cleared at this port for Chicago yesterday. Her cargo consisted of two hundred thousand feet of lumber.—*Detroit Free Press, 22d.*

A HUMAN LIFE SAVED.

Dowagiac, Mich., March 11, 1856

J. A. RHODES, Esq:—Dear Sir—As I took your medicine on conditions, "no cure, no pay," I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received:

W. S. Conklin told me—"I had taken nine bottles of Christie's Ague Balsam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors, too, did all they could for me, but thought I must die. Nothing did me any good until I got Rhodes' Fever and Ague Cure, which at once relieved me of the distress and nausea at my stomach and pain in my head and bowels and produced a permanent cure in a short time."

H. M. Conklin says—"I had been taking medicine of as good a doctor as we have in our county, and taken any quantity of quinine and specifics without any good result, from 25th August to 17th December. But seeing how nicely it operated on my brother, I got a bottle of RHODES' FEVER AND AGUE CURE, which effected a permanent cure by using two thirds of a bottle."

S. M. Conklin was not here, but both the other brothers say his case was the same as H. M.'s. I sold the medicine to both the same day, and the cure was as speedy from the same start, [illegible], and I might so specify.

Yours with respect, A. HUNTINGTON.

The above speaks for itself. Good proof as it is, it is of no better tenor than the vast number of like certificates I have already published, and the still greater amount that is continually pouring in to me.

One thing more. Last year I had occasion to caution the public in these words:

"*I [illegible] substituted the name of the [illegible] for my medicine, and [illegible] impudence [illegible] [illegible] any other medicine [illegible]*," &c.

Now I take pleasure in saying that the Caution referred to the same "Dr. Christie's Ague Balsam" that is mentioned in the above certificate.

There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague Cure, or Antidote to Malaria, except the Certificates of Cures, and the certificate of the celebrated Chemist, Dr. James R. Chilton, of N. Y., in favor of its HARMLESS CHARACTER, which is attached to every bottle. These will always serve to distinguish my medicine from imitations.

THE ONLY MEDAL AWARDED

BY THE NEW YORK EXHIBITION TO THE English or Foreign Sauce Manufacturers, has been obtained, amongst numerous competitors, by LEA & PERRINS, for their

WORCESTERSHIRE SAUCE,

whereby further testimony is afforded of its being the best Sauce extent.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health, is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman, who writes to LEA & PERRINS thus: "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use, your Sauce is stomachic, and I think medicinal. I can, with truth, say there is nothing in a traveller's baggage so essential to the comfort, at least in these countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms: "Tell Lea & Perrins that their Sauce is highly approved in India, and that it is, in my opinion, the most palatable, as well as the most wholesome, Sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

THEATRE.—The performance of the "Stranger" and "Toodles," by Thorne's Star Company, at their first presentation gave such delight to the audience, and so much desire has been expressed for a repetition of them, that the Manager presents them again to-night, when, we doubt not, the Company will be greeted with a full house.

PLANT TREES.—We said a few words yesterday to our readers upon this subject, and we now invite them to read what one of our cotemporaries, the Jefferson *Republican*, says in regard to it:

"The season of transplanting is at hand. Would that all who have a foothold upon the earth, would give a few days to this matter. We can blend the useful with the ornamental. With a little time and expense on the part of every farmer or landholder, our highways and homes might be made beautiful and attractive, instead of being desolate and lonely. Our people are Vandal in their tastes. Every green thing is swept from the highway and around the homestead, destroying in a day what God was ages in rearing. Does the reader say that the planting of a tree will do him no good? That idea is narrow and selfish. The tree planted with our own hands, incorporates some of our own individuality in its growth. It becomes a kinsman of ours. It answers our fostering care with strength and beauty, its roots pointing downwards and its branches to the sky.

Plant trees. They will remain after we have passed away, speaking to those who come after us in all seasons. Each trunk will be a monument to the labor of our hands. Close as their bark, a thousand hallowed associations will cling about them as their leaves put out, fade, and fall to the ground in the passing seasons. We shall not have lived in vain if some living thing shall lift its green crest, an annually blooming memory of our living.

THE BRICK MAKERS.—Our brick makers are doing a very large business. Indeed, they cannot supply the demand. Contracts for brick are made months ahead. It is computed that already nearly *twenty millions* of brick have been contracted for, and the building season has but just commenced. Prices have risen considerably. A few years ago common brick were sold at $3 50 per thousand, and pressed, or face brick at $10 00. Now, $6 50 is the price for common, and $13 00 for pressed brick. At these rates our brick makers must get rich rapidly.

DR. FITCH'S DENTAL ROOMS.—We called in, yesterday, upon Dr. C. P. Fitch, whose office is in the Law Buildings, on Wisconsin St. The Dr. has been in the city nearly a year, and, having taken the Diploma at the last State Fair, is doing a good business. From the specimens of Teeth, Gum Work, &c., we saw at his office, we should think he ranked among the most scientific operators in the science of Dentistry.

He is the only maker of *Continuous Gum Work* and Block Teeth in our city. His specimens of these two kinds of work are of the first order, and seem to challenge nature herself for beauty, and at the same time *a natural appearance*. With this kind of gum work, the face that has fallen in from an absorption of the ridge of the mouth, or alveolar process, and the loss of the facial muscles, rendering the subject prematurely aged in appearance or looks, may be restored to its youthful or wonted appearance. In addition to this, the work is, above all others, the most cleanly, and subserves the purposes of mastication admirably.

Teeth are filled, drawn, &c., and all dental operations performed with despatch, and in a new and most satisfactory manner.

FRENCH MERINO SHEEP.—Messrs. Rosier & McAllister have on the road to this city about 150 choice French Merino Bucks and Ewes, and cross bred Sheep.—They are expected to arrive this week; we shall notice them fully when they do. They have sold thousands of these high bred sheep throughout the interior of this State and the demand still continues. Their fair dealing has ensured them a certainty of disposing of all their sheep within a few days after their arrival in the State.

OFF SAFELY.—The schooner *Argo*, which went ashore in the gale, a fortnight since on the South Point, was got off safely yesterday by the tug *Geo. W. Tift*, and brought into port, having received very little injury.

The *Tift* also towed into the harbor, last evening, the schooner *Henry Norton*, which went ashore at this port last December.

A FAMILY GROCERY.—A family Grocery, which has been established for four years, and which is doing a first rate business, is offered in our advertising columns this morning, together with a well selected stock of Groceries, &c., to any person wishing to engage in such business. The location is an excellent one for business, and the present proprietor has made himself well off in carrying it on. See advertisement.

THE CITY ARCHITECT;—A series of original designs, for Dwellings, Stores, and Public Buildings, Illustrated with drawings of Plans, Elevations, Details, &c., by WILLIAM H. RANLETT—DEWITT & DAVENPORT, N. Y., Publishers.

We have received from the publishers No. 1 of this valuable publication, in royal quarto form, to be completed in two volumes, of 10 numbers each, at 50 cts. per number. The author is extensively and favorably known as a writer on Architecture, and this is, we think, the best of his works. It ought to be widely circulated.

NEW DRY GOODS CONCERN.—Messrs. LEWALD & DANENBAUM, announces themselves in our columns as competitors for the trade in dry goods. They have a handsome store, on the West side, next door to Pierce's old stand, new goods just selected, and are entitled to a fair trial of their quality. They open on Monday next.

FOR SUPERIOR.—The steamer *Superior*, Capt. Jones, will leave the South Pier, this, Friday, morning, at 8 o'clock, for Superior, calling at all the intermediate ports. For freight, apply to DOUSMAN & Co.; for passage, to JOHN GRIFFIN, on Huron Street, near the American Express Co.'s Office.

CHOICE CUTLERY.—JOHN HARDY, keeping pace with the times, has put in a new front to his store, opposite the Walker House, and displays his beautiful Cutlery to the passing public. Table Cutlery, ranging as high as $70 per set, equal to anything in the world; Tools of the best makers; all kinds of Knives, Brittania and Brass Ware, can be found at Hardy's, cheap too.

PACKING GUNPOWDER.—There is criminal carelessness in the mode in which gunpowder is occasionally packed, to be forwarded to country dealers. We have heard of recent instances where kegs of powder were put up in the same package with various merchandize, including a few gross of *matches*, for transportation by rail, or teams. This is inexcusable, and subjects the persons so packing powder to a very heavy penalty. We hope that this *hint* will suffice to put a stop to the practice.

BOOKS, &c.—See Messrs. J. A. HALL & Co's Card. This is now one of the oldest established Book Houses in the city, and its proprietors are known as courteous and fair dealers, who have deserved success in business. They invite the attention of dealers, and the public generally, to their very full stock. Another advertisement of theirs will appear to-morrow.

GAS FOR THE FIFTH WARD.—John Lockwood has taken the contract for building the Gas Works which it is proposed to erect in the Fifth Ward.

COUNTRY RESIDENCE FOR SALE.—D. J. POWER offers for sale one of the most beautiful residences in the state. The description in another place does not half come up to its real beauties.

ST. NICHOLAS HOTEL, CHICAGO.—See the card of the proprietors of this fine house in our advertising columns to-day.

JOINERS WANTED.—Capt. JONES, at his shipyard, wants a large number.

FOR SALE.

A BEAUTIFUL COUNTRY SEAT, 27 miles west of Milwaukee, 2 miles from the Pine Lake Station on the Milwaukee and Watertown Railroad, and 2 miles from the village of Delafield. The building has a southern exposure on Lake Nemahbin, and stands on a thickly wooded peninsula of 32½ acres, running between the Nemahbin and Lower Nashotah Lakes, and terminated by the communication between them, and commands a full view of both. The house is of stone, in Elizabethan cottage style of architecture, the inside wood work handsomely finished with staining and varnish; was built five years ago by the owner, who has been its only occupant; contains 11 chambers, parlor, dining room, study, kitchen, washroom, bathroom and has full length ornamental piazzas on the front and both sides. The entrance to all the offices is under cover. There is a beautiful lawn in front, 40 feet above the lakes, and sloping gradually to the water's edge on both sides, an excellent kitchen garden back, an orchard of young trees, carefully selected for family use, a stable for 4 horses and 2 cows, with carriage house, &c., and one of the best icehouses in the country. The neighborhood abounds in partridges, quails, rabbits, squirrels, and every variety of game. The lakes are full of pickerel and other excellent fish, and in the spring and autumn are covered with wild ducks. In short, the place holds out every attraction for the sportsman, and opportunities rarely to be found for the exercise of rural taste. The situation is remarkably healthy, not a single case of chills and fever, or of any of the sicknesses often prevalent in the West having occurred in the family during the whole time the place has been occupied.

Price $8,500. A large deduction will be made for cash down in full.

THE BEST FIRE-PROOF SAFE in the World, Depot No. 122 Water St., near Wall St., New York. The thousands of Certificates from Merchants, Bankers, and Mechanics of all trades, that have been given in favor of this, the only true "SALAMANDER," renders it useless for the subscribers to multiply words in its favor, as full twenty-five thousand of "WILDER'S PATENT SALAMANDER SAFES," have been manufactured and sold in the United States; and in almost every large fire that has taken place during the last ten years, these Safes have been subjected to the SEVEREST TESTS, and not one of the "Genuine Salamanders" has ever been destroyed.

DEALERS IN

FINE CLOTHING!

AND

MEN'S FURNISHING GOODS!

No. 107 East Water Street,
MILWAUKEE, - - - WISCONSIN

IN presenting their compliments to the citizens of Milwaukee and its vicinity, respectfully invite their attention to a large and superior stock of

READY MADE CLOTHING,

AND

MEN'S FURNISHING GOODS,

Which they have just opened at 107 East Water Street. As they are a branch of one of the largest houses in the city of New York, and having excellent facilities for manufacturing, both in Newark, N. J., and New York, and employing good taste in selection of materials, and mechanical abilities of the highest order in their manufacture, it is no vain boast to say that their stock presents unusual attractions. Their goods having been sold for the past eight years to the first Clothiers in the principal cities of the Union, and, as they believe, has given satisfaction in all cases, and their business increased in an unparalleled degree, they feel fully justified in saying to the citizens of Wisconsin that

THEIR STOCK IS SUPERIOR

to anything heretofore offered in the West. We warrant every article to please—if not, to refund the money. Our object is to consult the interest of the consumer, and thereby promote our own. And in opening this branch in this flourishing and thriving city, we present an article not only superior in style and workmanship to those usually offered, but equal in durability and fit to garments made in any customer department in the Union. We also embrace this opportunity to say that, as it appears fashionable in this market for Clothiers to inform the public of their introducing fashions of the Parisian style, that we receive, direct from one of the best reporters in the European market, a suit of clothes at each of the various seasons of the year, and though we do not always recommend it as being superior to the American, yet, if parties prefer, we can give it to them in advance of any other establishment. We are pleased to fit the head as well as the body.

Our Furnishing Goods Department

Embraces the largest variety of styles, and as one of the firm is always to be found in the New York market, we shall always be daily in receipt of them, and fully up to the times.

TO THOSE IN PURSUIT OF A SHIRT,

We solicit special attention. As we have a manufactory of our own which produces over one hundred and fifty dozen per week, we are prepared to furnish the various grades, and at prices that cannot fail to please. Gentlemen wishing a particular kind will find it to their interest to call on us, as they can be accommodated on very short notice. City and Country Dealers supplied at New York prices, and on liberal terms.

CONGRESSIONAL NEWS.

Mr. Buchanan in New York.

WASHINGTON, 24th.

SENATE.—On motion of Mr. Benjamin, a resolution was adopted calling on the Secretary of State for information relative to the extent to which the transportation of labors is now being carried on from the continent of Asia or any Asiatic Islands to Asiatic Islands to America; whether such laborers be termed laborers, Coolies, or apprentices. Also, to show the manner in which they are treated on the passage and after their arrival—together with any statistics he might possess, showing the sacrifice of human life attending the traffic.

Mr. Hale stated that the expenses of the Government, now, in a time of profound peace, is ten millions greater than during any year of the Mexican war, while it required two millions annually to keep Washingtons administration, sixty millions are necessary to sustain that of Mr. Pierce. He did not know but he was doing wrong to state these facts, as it might encourage the President to go into another war, thinking it might be more economical. [Laughter.]

House passed a bill creating Columbus, Kentucky, a port of delivery.

Mr. Pelton, from the committee of commerce reported without amendment the Senate bill remitting or refunding duties in original packages destroyed by fire.

Washington, 23d.

A Launch.

BUFFALO, April 24.

The M. S. R. R. Co.'s steamer *Western Metropolis*, was launched yesterday, in the presence of 5,000 persons. She went off gracefully, and when she settled fully down into the water, she drew only 5 feet 5 inches.

Later from Central America—Arrival of the Steamer Charles Morgan.

NEW ORLEANS, April 23.—The steamer Chas. Morgan has arrived at this port with San Juan dates to the 16th instant. The Orisaba arrived at San Juan on the 16th and landed 125 passengers.

The defeat of Col. Schlessinger is confirmed. Fifty men were killed in the engagement. The cause is attributed solely to the gross and careless conduct of Col. Schlessinger. The remnant of his party had arrived at Ricas. Schlessinger had not taken a single precaution against a surprise, although within the enemy's country, and on the field his conduct was so cowardly that Capt. Thorpe was obliged to face him with pistols and threaten to blow his brains out. His cowardice had created a panic and the men became dispirited. The curses vented against Schlessinger by the returned forces are loud and deep.

Capt. Thorpe is a passenger by the Charles Morgan. He reports that Walker is in a good position, and prosperous circumstances, and is receiving large accessions to his forces.

Another battle had taken place at Acrapoka between 140 of Walker's men, under Captain Baldwin, and 200 Costa Ricans, in which the latter were defeated.

New York News.

NEW YORK, April 21.

The body of young Pierce, who so mysteriously disappeared on Tuesday, was yesterday identified by his father, on the ocean beach, at Rockaway. Valuables were found upon his person, and the lack of any marks of violence upon the body, shows that the theory of his robbery and murder was not correct. How the death happened, and where, is as much a mystery as before.

NEW YORK, April 23.

The jury in the case of Giles vs. Flagg in which the plaintiff contested the Comptrollership of the city, on the ground of fraud in the election returns in the 19th ward, this morning returned a verdict in favor of Flagg, the present incumbent.

Mr. Buchanan was honored with a perfect ovation at the City Hall this morning. The reception room lobbies &c., were crowded, and among those who paid their respects were many of our most distinguished citizens.

NEW YORK, April 23.

Haviland Routh & Co., publishes a card denying the truth of the failure of the House of Haviland Routh & Co., of Montreal.

Townsend, the Mail Robber.

PHILADELPHIA, April 23.

Townsend, the mail robber, who was shot and severely wounded while attempting to escape from New Castle jail a few days since, succeeded in scaling the wall last night, but he only ran three miles when he fell from exhaustion and was retaken to prison. His escape was discovered about 1 o'clock A. M., and his course easily followed by the blood from his wounds, which reopened in the effort he made to scale the walls. The physicians dressed his wounds but a few hours previous to his escape.

CAIRO, April 21.

The rivers are raising slowly. The steamers Fanny Bullett and L. M. Kennett for New Orleans, passed to-day. The steamer America for St. Louis, with a number of Southern emigrants for Kansas, calling themselves the *Southern Kansas Guards*, passed to-day.

The Camden Ferry Disaster.

Nicaragua News.

NEW ORLEANS, April 23.

Col. French has left San Juan for Aspinwall, having quarrelled with Walker. It was reported that the latter had 700 men marching to resist the Costa Rica invaders. Accounts, however, were meagre and unreliable.

TURTON & SERCOMB,

IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Badger and other States.

In order the better to do this, the proprietors have erected a large brick foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a steam engine of —horse power to drive the whole, which will give to their former facilities for the successful carrying on of the Foundry, Machine Engine and Blacksmithing business. In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that successful operation through the country as their best recommendation, as it can speak for itself. All they can say is that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS such as GUAGE AND CYLINDER COCK, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and all others from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

MILWAUKEE MUTUAL

FIRE INSURANCE COMPANY.

OFFICE IN MARTIN'S BLOCK, MILWAUKEE, WIS.

Capital over $165,000, in Cash & Premium Notes

THIS COMPANY offers unrivalled facilities for the insurance of buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one third as much as in Stock Companies, saying nothing of the increased security and the incompatible ease with which losses are settled. During the last five years, this Company have issued 2600 Policies and made but three assessments, at a cost to the property insured, not exceeding two mills on the dollar— Its business is principally confined to this State.

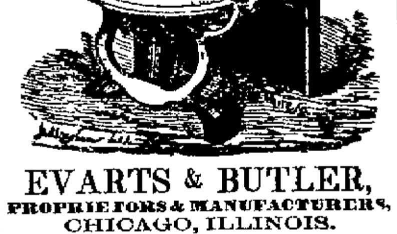
EVARTS'

PATENT SHINGLE MILL



EVARTS & BUTLER,

PROPRIETORS & MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

EAST WATER STREET,

Marble Block, one door South of their old Stand.

HAVING recently received an extensive stock, and daily adding to it the latest styles of

SPRING GOODS,

Together with an enormous stock of DOMESTICS, purchased in the Fall at very low figures, with a view of being prepared for the EARLY SPRING TRADE, without being subjected to the exorbitant rates of Rail Road charges on such goods as are sold at a fraction above Eastern cost, we are prepared to show, and will be most happy to sell the

MOST COMPLETE AND EXTENSIVE STOCK OF

DRY GOODS,

Ever before offered in the West!

Being connected with several large manufacturing establishments and importing houses at the East, giving us an advantage over any other Mercantile House in the State, and having long resided and done business in this city, and our established principles of doing business being well known to every city and country customer, to be of the most liberal nature, we flatter ourselves that we can say with safety that we consider competition quite out of the question.

We would say to

COUNTRY MERCHANTS

who design going East to purchase, that we would esteem it a favor if they would honor us with a call before leaving for New York and Boston, as we feel quite confident that we can convince them that it is to their interest to purchase in Milwaukee.
